The Legendary Pop-Up: Mirage® Display

Durable Fiberglass Frame

Mirage's fiberglass rods flex without breaking or kinking. Its durable frame performs every time and won't leave you stuck at a show with a frame that's damaged or bent. That's peace of mind.

Quick and Easy to Install

Our lightweight frame pops up instantly and locks into place with connectors. Panels simply attach with magnets.

Entice Customers and Prospects

Skyline Genuine Graphics are the highest quality in the industry. You'll always look professional with compelling graphics that are built to last.

We produce all of our graphics in-house for the best fit and finish - guaranteed.

Flexible frame is unbreakable

Mirage's fiberglass frame is strong, durable and lightweight. Best of all, if our flexible frame is impacted, it bounces back without damage - unlike other pop-ups.

Mirage frame and channels are backed with a lifetime warranty!

Mirage Display Hardware

4 Marquee backlit header

Attract attention with a backlit graphic header! Marquee makes your company name stand out.

5 Exact-fit panels

Skyline panels – both fabric and graphic – are computer cut to a tolerance of 3/1000 of an inch.

6 Cost-efficient case table

Transform your display cases into a table. You get additional work surface and branding opportunity.

Convenient Mirage tabletops provide a professional look for smaller spaces.

7 Expanded design options
Mirage works seamlessly with other Skyline systems – expanding design possibilities.

8 Merchandising accessories
A variety of accessories like shelving, peg bars, and apparel racks effectively display your products.

9 Fabric color choices
Fabric panels are available in a variety of colors and are compatible with detachable graphics.

For easy handling, a 10' Mirage display packs in two lighter weight cases, instead of one bulky, hard-to-manage container.

1 Unique triangulated frame
Frame 'triangulation' prevents warping and panel gaps even on non-level show floors.

2 Polarized channel magnets
Multiple strips of alternating polarization 'snap' panels into perfect alignment.

3 Transporter cases
Specialized compartments protect valuable exhibit components during shipping and storage.

Mirage®

Marquee Header brings your name or message into prominence and can be backlit for extra 'pop.'

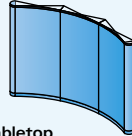

Mirage Bubble Panel commands attention with a full-panel, backlit graphic.

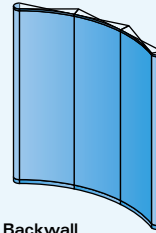

Mirage units connect seamlessly to create in-line exhibits of 20' or more.
